AIR COMMAND

# System Management

# Total Control. Trusted Performance.

Air Command is Gardner Denver's advanced system management platform, built to give you full control over your compressed air operations. Designed for reliability and precision, Air Command combines intelligent monitoring, dynamic control, and actionable insights to help you stay ahead of inefficiencies, protect uptime, and drive peak performance.

Whether you're identifying issues early, optimizing energy use, or maximizing system output, Air Command is your partner in operational excellence. It's not about complexity—it's about clarity, control, and confidence in every decision.

AIR COMMAND DETECT

## DETECT TIER

### Smarter Monitoring. Stronger Performance.

Air Command (Detect) is built to keep your operation sharp. Using advanced algorithms and real-time operating data, it pinpoints inefficiencies in compressor performance with precision and delivers expert recommendations to fix them fast. No fluff, no guesswork; just actionable insights that help you stay ahead of issues and optimize your system.

It's not just monitoring—it's guidance. Detect helps you make smarter maintenance decisions, improve efficiency, and reduce costs over time. Because when your equipment runs better, your business does too.

## Key Capabilities

**PREDICTIVE & PRESCRIPTIVE INSIGHTS**
Stay ahead of risk, maintenance needs, and energy waste with intelligent alerts and expert recommendations.

**24/7 REMOTE SYSTEM VISIBILITY**
Real-time KPIs and trend tracking give you full visibility—anytime, anywhere.

**HISTORICAL DATA & SYSTEM STATS**
Access detailed performance history through the portal to spot patterns and plan smarter.

**ENERGY SAVINGS OPPORTUNITIES**
Detect identifies where you can cut energy use and reduce $CO_2$—without compromising performance.

**SYSTEM HEALTH DASHBOARD**
Get a clear view of system capacity and condition, so you're never caught off guard.

**CHANNEL PARTNER SUPPORT**
Your Gardner Denver channel partner monitors your system remotely to help prevent downtime and ensure parts are ready when you need them.

To learn how Air Command protects your operation, contact your local Gardner Denver channel partner today.
